Video Calling Camera User Guide

This manual is for reference only, and the specific functions are subject to actual condition.

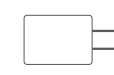

Packing List

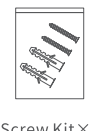

Camera X1

Power Cable X1

Power Adapter X1

Screw Kit X1

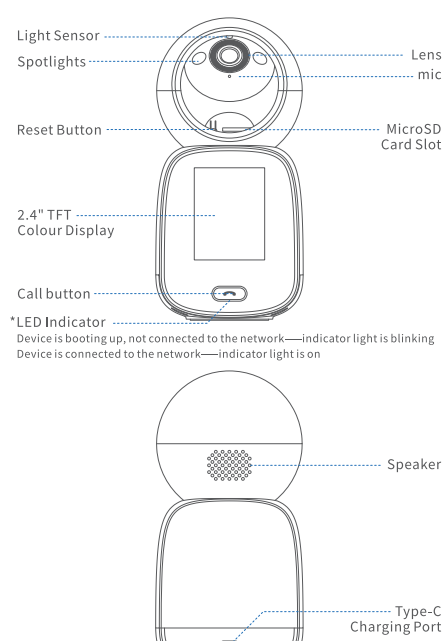

Wall Mount X1

User Guide X1

After opening the package, please confirm whether the main body of the camera is in good condition and whether the accessories are complete.

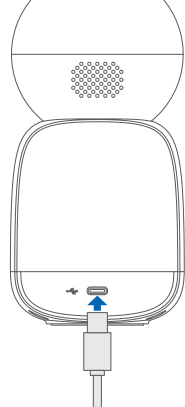

Product Introduction

Light Sensor
Spotlights
Reverb Button
2.4" TFT Colour Display
Call Button
LED Indicator
Speaker
Type-C Charging Port

Power Connection

- Connect the power cable to the power port on the back of the product. When the indicator light on the front of the product flashes or the device plays a voice prompt, it indicates that the camera is powered on.

Quick Configuration

STEP 1 Download APP
Scan the QR code on the front of the product or search for "Noorio" in major app markets, download and install.

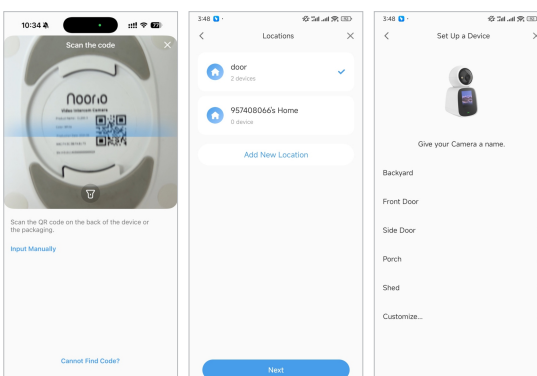

STEP 2 Register and log in
Register for an account in the app, and log in. If you have already registered, please log in directly.

STEP 3 Add Device
Open the app, tap the "Add Device" button, and follow the on-screen instructions or refer to the "Add Device" flow to add the device.

**Due to APP upgrades and updates, the actual operation may be slightly different from the above description, please follow the instructions in the APP to operate.*

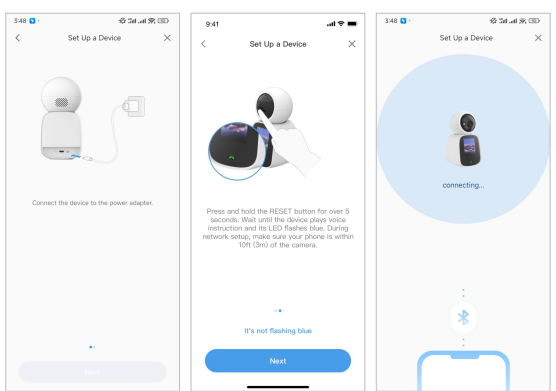

Bluetooth Configuration Step1

- Turn on your phone's Bluetooth. Open Noorio App, Click "Set Up a Device". Scan the QR code on the bottom of the camera.
- Select the location where you want to add the camera.
- Set a name for your camera.

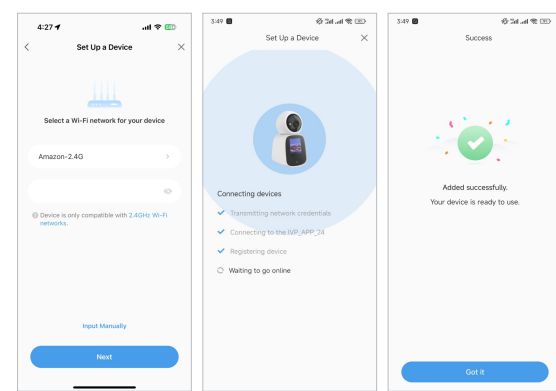

Bluetooth Configuration Step2

- Make sure your camera is connected to a power source.
- Rotate the lens and press and hold the reset button below the lens until you hear a voice prompt.
- Connect the camera's Bluetooth and enter network pairing mode.

Bluetooth Configuration Step3

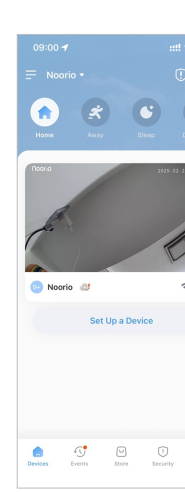

- Select the Wi-Fi network you are using and enter the Wi-Fi password.
- Wait for the camera to register with the server.
- Added successfully.

App Instruction

1. Homepage
On the app's home page, you can check the number of triggered events, network signal strength, and battery level. Tapping the gear icon on the right will take you to the camera settings page.

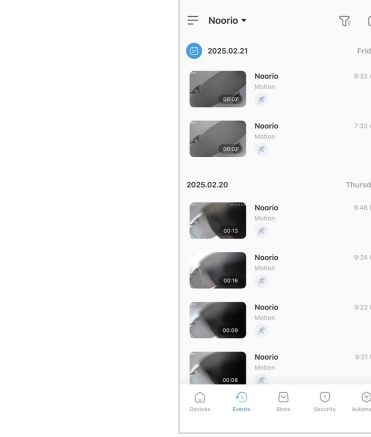

- If you encounter any issues while using the app, you can tap the "Help" button in the top right corner to contact our customer support.

App Instruction

2. Events
In the event list, you can click on a thumbnail to view the corresponding event.

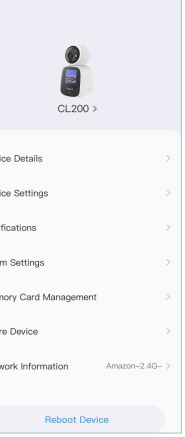

- The **Calendar** button in the top left corner helps you quickly locate a date.
- The **Filter** button in the top right corner allows you to filter detection types.
- The **Edit** button enables you to delete irrelevant event clips.

App Instruction

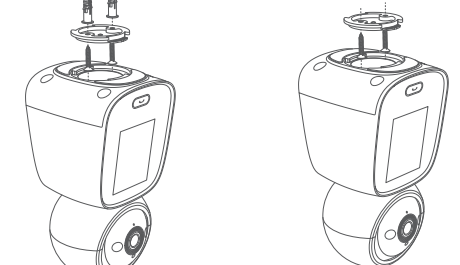

3. Camera Settings
On the camera settings page, you can view the device's setup code, enable/disable message notifications, switch night-vision mode, share the device, and more.

- If you have enabled message notifications in the app settings but are not receiving triggered events, please check whether your phone's system settings allow notifications for the Noorio App.

Installation Instructions (For Indoor Use Only)

- Cement wall: Use the wall mounting bracket to drill holes in the wall, insert the wall plugs, and then insert the screws to secure the wall mounting bracket.
- Wooden wall: Align the hole in the wall mounting bracket, and then insert the screws directly to secure it.
- Align the camera base with the wall mounting bracket buckle, and rotate to secure the camera.

FAQ

Q: How do I store recordings?
A: The camera supports two storage methods: local storage and cloud storage (requires subscription).
Local Storage: Stores recorded videos on a MicroSD card.
Cloud Storage: Stores recorded videos in the cloud with a rolling retention period of 30 days, support online viewing and downloading of historical videos.

Q: The camera is offline. How can I check it?
A: Check if the power and network are functioning properly.
Reconfigure the camera if necessary.

Q: How can I contact customer service?
A: You can get online support through the App-Help, or contact us by email at support@noorio.com

Caution

To prevent connectivity issues caused by poor signal strength, the wireless security camera should be placed within 30 feet of the router. Problems such as the camera going offline or failing to connect to Wi-Fi are often due to signal instability resulting from excessive distance. If the camera's connection is weak or unstable, relocating it closer to the router is recommended for better performance.

Notice

FCC Statement
This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference.
(2) This device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class C digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
(1) Reorient or relocate the receiving antenna.
(2) Increase the separation between the equipment and receiver.
(3) Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
(4) Consult the dealer or an experienced radio/TV technician for help.

FCC Radio Frequency Exposure Statement: The device has been evaluated to meet general RF exposure requirements. The device can be used in fixed/mobile exposure condition. The min separation distance is 20 cm.

Notice

Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

IC Statement
This device complies with Industry Canada licence-exempt RSS standard(s). Operation is subject to the following two conditions:
(1) this device may not cause interference, and
(2) this device must accept any interference, including interference that may cause undesired operation of the device.

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes:
(1) l'appareil ne doit pas produire de brouillage, et
(2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

This Class B digital apparatus complies with Canadian ICES-003. Cet appareil numérique de la classe B est conforme à la norme NMB-003 du Canada.

IC RF Statement
When using the product, maintain a distance of 20cm from the body to ensure compliance with RF exposure requirements. Lors de l'utilisation du produit, maintenez une distance de 20 cm du corps afin de vous conformer aux exigences en matière d'exposition RF. The recommended temperature range for devices and accessories is -20°C to 60°C (Charging temperature is 0°C to 45°C).

Notice

 This product complies with the radio interference requirements of the European Community.

 This symbol means the product must not be discarded as household waste, and should be delivered to an appropriate collection facility for recycling. Proper disposal and recycling helps protect natural resources, human health and the environment. For more information on disposal and recycling of this product, contact your local municipality, disposal service, or the shop where you bought this product.

Warranty

Warranty & After-Sales Service
Thank you for purchasing our security camera. We are committed to providing high-quality products and excellent customer service.

1-Year Limited Warranty
We offer a one-year limited warranty from the date of purchase. During this period, if your camera experiences any defects in materials or workmanship under normal use, we will provide refund or replacement.

Warranty Conditions:
*This warranty covers only product defects due to manufacturing.
*The warranty does not cover damages caused by improper installation, accidents, unauthorized repairs, or natural disasters.

How to Obtain Service:
If you experience any issues with your product, please contact our customer service team with your order number and device code. We will provide troubleshooting assistance and guide you through the warranty service process.
